

**Global Trust Consults Ltd**

Architects | Engineers | Project Managers | Quantity Surveyors

# COMPANY PROFILE

# WHO WE ARE

Global Trust Consults Limited (GTC) is an Architectural, Civil / Structural Engineering, Quantity surveying, Project Management and engineering consultancy.

Since her founding on 18th November 2008, GTC has steadily grown with the realisation of our clients' dreams. Our core values of committed delivery, accountability, integrity, respect for each other as well as our clients and effective communication in our working relationships have proved to be our strength to the growth we have experienced over the years. GTC is fully registered in Uganda as a Limited Liability Company Certificate No. 99807.

Propelled by a choice of core value system, GTC has experienced growth and development in the past years during which it has handled various Architectural Design, Civil and Structural Engineering Projects, Quantity Surveying, Project Management, Supervision and Structural integrity appraisals.

We aim at increasing and maintaining our client base by meeting and exceeding our client needs, offering appropriate, reliable, cost-effective and timely consultancy services.

## Organisation and Objectives

Since 2008 the company has stood as an independent architectural, civil & structural engineering firm. Other services provided include: project management, quantity surveying, technical assistance, project appraisal and supervision of construction. At Global we value every client and seek to offer services to client satisfaction.

Global Trust Consults' key objective is to become one of the leading one stop centre for consultancy offering a full package of all construction solutions with value for money. Our staff members consist of highly qualified professionals offering services in the disciplines of project management, architecture, civil structural engineering, quantity surveying and often co-ordinating electrical and mechanical engineering works.

## Vision and Mission Statement

GTC's mission is to be the leading multidisciplinary consultancy firm in Uganda offering a complete package of construction solutions mainly but not limited to; Architectural, Civil/ Structural engineering and quantity surveying and project management.

### **GTC realises its mission statement through:**

- Gathering and identifying all necessary data for the project designs.
- Maintaining effective relations with the various stakeholders throughout the project lifetime.
- Strict adherence to codes of practice and design. Detailing with computer aided software to produce accurate and timely designs leading to cost effective project developments.
- Timely delivery of projects at a competitive fee .
- Ensuring that our designs meet environmental and other statutory requirements.

## Core Activities

Professional field	Description
<b>Architectural</b>	We offer a wide range of Architectural services with a variety of contemporary designs which are geared to fit harmoniously in the built environment.
<b>Quantity Surveying(Building Economics)</b>	Quantification of existing and new works using standard procedures.
<b>Structural Engineering</b>	Structural appraisals and investigations, design and construction supervision of appropriate, cost effective structures using different materials with an eye on quality and detail.
<b>Project Management</b>	Management of various projects to ensure value for money from inception to completion. A keen eye is set on cost (projects have to be completed within their budgets and timely) without compromise on quality.
<b>Environmental Assessment</b>	Social impact assessment, Eco-tourism impact analysis, telecommunication, Occupational health and safety, waste management analysis.
<b>Physical Planning</b>	Preparation of policy documents (structure and detailed plans, land use and master plans for urban centres and institutions).

### Firm Capability

The firm undertakes to provide consultancy services but not limited to; architectural, physical planning, civil and structural designing, tender documentation and supervision of building construction works, structural/civil works, structural appraisals for functional changes and renovations, environmental assessments, etc

Global Trust Consults Ltd is therefore a one stop centre for all building / construction consultancy needs.

## Resources - Key Personnel

Permanent staff:

Directors/Management staff	5
Technical staff	4

Assignment Name:	LATREZA MIXED USE DEVELOPMENT Development at Kasanga
Name of Client and Address:	Namayanja Teddy

**Description of the project**

Design and Supervision of a Mixed use building.

**Description of actual services provided:**

- Project management services.

<b>Start and Completion date:</b>	2017-2020 – Projected completed
<b>Duration of Assignment:</b>	03 years
<b>Approximated value project:</b>	Ugx 7.0 Billion
<b>Senior Professional Staff Engaged</b>	<ul style="list-style-type: none"> <li>• Project Manager – Catherine N. Muyinda</li> <li>• Architect- Catherine N. Muyinda</li> <li>• S.E- Fred Mubiru</li> </ul>

Assignment Name:	Proposed Bugolobi Market Mall
Name of Client and Address:	Bugolobi Market Traders' Association

**Description of the project:**

Feasibility study to ascertain the cost of the proposed development

**Description of actual services provided:**

- Preriminary Design of new Mall
- Site Measurements
- Environmental Impact Assessment (EIA)

<b>Start and Completion date:</b>	Ongoing
<b>Duration of Assignment:</b>	
<b>Approximated value project:</b>	USD. 62 Million
<b>Senior Professional Staff Engaged</b>	<ul style="list-style-type: none"> <li>• Team Leader - Catherine N. Muyinda</li> <li>• Architect- Solomon Ngari</li> <li>• Environmentalist - Lameck Muwanga- Structural</li> <li>• Engineer-Proman Consult Ltd.</li> </ul>

<b>Assignment Name:</b>	Structural analysis of the ESP structure. LPO No. 4817985
<b>Name of Client and Address:</b>	Hima Cement Ltd, P.O. Box 37 Kasese

**Description of the project:**

Structural analysis of the ESP structure to determine soundness and ability to hold the proposed bag filter in replacement of the ESP.

**Description of actual services provided:**

- Site visit to determine structural condition.
- Structural documents review.
- Site measurements and ESP details (size, weight, dynamic characteristic, slab loaded points)
- Site non destructive tests.
- Detailed structural elements (foundation, columns, beams and slab) strength calculations.

<b>Start and Completion date:</b>	1st -15th March 2013
<b>Duration of Assignment:</b>	2 Weeks
<b>Approximated project value:</b>	Ugx 8 billion (ESP conversion to bag filter project)
<b>Senior Professional Staff Engaged</b>	<ul style="list-style-type: none"> <li>• Structural Engineer -Paul Mujugumbya - Associating Consultant</li> <li>• Structural Engineer- Robert Mulwooza</li> <li>• Technical Director - Blasio Sendagire</li> </ul>

Assignment Name:	Proposed Industrial Park
Name of Client and Address:	DHL

**Description of the project**

Design and Supervision of No.12 Warehouses and Offices

**Description of actual services provided:**

- Design of proposed site layout
- Design of the actual Warehouses and Offices
- Site Supervision
- Environmental Impact Assessment (EIA)

<b>Start and Completion date:</b>	2015
<b>Duration of Assignment:</b>	8 Months
<b>Approximated value project:</b>	USD 1.2m
<b>Senior Professional Staff Engaged</b>	<ul style="list-style-type: none"> <li>• Team Leader - Catherine N. Muyinda</li> <li>• Architect- Solomon Ngari</li> <li>• Environmentalist - Lameck Muwanga</li> <li>• Structural Engineer-Proman Consult Ltd</li> </ul>

Assignment Name:	Structural appraisal for Go-Down No. 1 Floor
Name of Client and Address:	BAT (U) LTD

**Description of the project**

Structural analysis of the failing go-down floor (aprox 600sq meters) to establish failure cause and remedial measure

**Description of actual services provided:**

- Site visit to determine structural condition.
- Site measurements including slab underlying elements.
- Detailed floor strength calculations. Slab materials integrity establishment
- Structural appraisal report preparation.
- Remedial works tender documents (boqs and drawings) preparations.
- Site construction works supervision.

<b>Start and Completion date:</b>	1st -15th April 2013
<b>Duration of Assignment:</b>	4 Weeks
<b>Approximated value project:</b>	Ugx 20 Million
<b>Senior Professional Staff Engaged</b>	<ul style="list-style-type: none"> <li>• Structural Engineer - Robert Mulwooza</li> <li>• Technical Director - Blasio Sendagire</li> <li>• Architect- Cathy Muyinda</li> <li>• Quantity Surveyor - Douglas Mwesige / Kibet Evans Arapsiwa</li> <li>• Materials Engineer - Mukasa</li> </ul>

Assignment Name:	PROPOSED SAIFEE FOUNDATION MEDICAL CENTER Development at Muyenga
Name of Client and Address:	The registered trustees of Dawat-E- Hadiyah

**Description of the project**

Proposed medical Clinic.

**Description of actual services provided:**

- Architectural, Structural and M/E Engineering design

<b>Start and Completion date:</b>	2020-
<b>Duration of Assignment:</b>	On-going
<b>Approximated value project:</b>	N/A
<b>Senior Professional Staff Engaged</b>	<ul style="list-style-type: none"> <li>• Project Manager – Catherine N. Muyinda</li> <li>• Architect- Catherine N. Muyinda</li> <li>• Structural Engineer- Dennis Kironde</li> </ul>

Assignment Name:	Design and Supervision of Proposed Junior Staff Quarters
Name of Client and Address:	Kamuli Mission Hospital

**Description of the project**

Design and Construction supervision of works

**Description of actual services provided:**

- Site measurements.
- Design and supervision of proposed development and supervision of works

<b>Start and Completion date:</b>	2015
<b>Duration of Assignment:</b>	Complete
<b>Approximated value project:</b>	Ugx 480 million
